

CAPE COD CANAL FORMALLY OPENED BY ROSE STANDISH

SANDWICH, Mass., July 29.—The Cape Cod canal, dreamed of ever since the earliest pilgrims followed the old Indian trails across the narrow heel of the long curved peninsula which encloses Massachusetts Bay, was officially opened here today with high officials of the state and many New York financiers as the guests of August Belmont, organizer of the company. The 12-mile sea level ditch which adds another link to the chain of canals along the Atlantic seaboard, is expected to open a new era in sea trade between New England ports and those south of the Cape. Between Boston and New York alone, it will save 70 miles in distance and four hours in time, and prevent the disastrous wrecks which have so long strewn the desolate sands of the Cape.

Coincidentally with the opening of the canal, the town of Sandwich, the oldest on the Cape, celebrated its 275th anniversary today. A score of floats depicting historical events in the town's history since the earliest Pilgrim days headed a parade this morning, while a brilliant waterway illumination will be provided this evening with electric lights strung along both sides of the canal.

The big ditch is 12 miles long from deep water to deep water, with eight miles cut through the land, and extends from this point on Cape Cod Bay to Buzzards Bay on the south. The depth will be 25 feet at low water, with a bottom width of 100 feet and width of approaches of 250 feet. The deepest cut was 29 feet at high water. On the Cape Cod side a breakwater 3000 feet long, built with 250,000 tons of granite will keep out the heavy storms. Two bridges will span the canal, one at Bourne and the other at Bridgewater. The estimated cost is \$10,000,000.

The Cape Cod canal is nearly as old in conception as the Panama canal, having been dreamed of for 200 years. It follows the old course of the Indian trail and was first officially mentioned in a resolution in the general assembly in 1650 favoring its construction. Several schemes came to an unsuccessful end; then August Belmont organized a \$5,000,000 New York corporation which turned the first spadeful of earth August 19, 1907.

Belmont, with a large party left New Bedford this morning on the specially chartered Rose Standish, Boston's largest excursion steamer, the first big boat through the canal. After going through the canal from end to end, and stopping at Sandwich to join in the festivities the party returned to Buzzards Bay.

STEVENSON, Wash., July 28.—George Christensen, a banker of Stevenson, has filed for joint senator for Kluckitlat and Shumania counties on the democratic ticket, and his campaign has begun. Mr. Christensen is popular and enjoys a large acquaintance in both counties. He is considered a very capable man.

Irrigates the Blood Knocks Rheumatism

A Remedy That Flushes the Blood from Head to Foot.

To get rid of rheumatism requires that the blood be completely flushed—not a mere makeshift as by salts and pain killers. The long record of S. S. S. is important to know. It has found its way into every section of the nation. It is the most widely used and most widely talked of remedy there is for all blood troubles. And it is a known fact that rheumatism is primarily a blood trouble.

It is conceded by the closest students of the subject that rheumatism is caused in most cases by an acid condition of the blood and aggravated by the remedies commonly used for relief. In other cases rheumatism is the result of nerve depression; in still others it is the effect of some vitiated blood condition, having been treated with mercury, iodides, arsenic, and other poisonous mineral drugs.

The recovery of all these types of rheumatism by the use of S. S. S. is a wonderful tribute to the natural efficacy of this remarkable medicine, for it is assimilated just as naturally, just as specifically, and just as well ordered as the most acceptable, most palatable and most readily digested food. Do not fail to get a bottle of S. S. S. today, but insist upon S. S. S. Don't accept a substitute. You will be astonished at the results. If your rheumatism is of such a nature that you would like to consult a great specialist, confidentially, write to the Medical Dept., The Serravallo Co., 530 Swift Bldg., Atlanta, Ga.

(Special Correspondence.)

HERMISTON, Ore., July 29.—W. J. Theriault, while leading a Jersey bull from the barn to the field was attacked by the animal and sustained severe injuries, breaking three ribs and being badly bruised.

Dr. C. O. Wainwright was summoned and attended the wounds. Some twelve hundred rabbits were killed yesterday at the rabbit shoot held in the vicinity of Henry Sommer ranch.

The shoot was public and many sport lovers turned out with arms. Another shoot was held near Umatilla where several hundred more were killed.

W. S. Phillips, formerly a hardware merchant in this city, died at his home in Tillamook Thursday evening of heart trouble. Mr. Phillips was an early pioneer in this section and had many friends who are grieved to learn of his death. He is survived by his wife, two sons and a daughter.

The Umatilla project reservoir had the appearance of a popular summer resort Sunday afternoon. Ladies sitting around on the sandy shore with their bright colored parasols and boys and girls lounging around on the sand while others enjoyed bathing. The gentle slope of the shore and reservoir bottom making a splendidly safe place for those learning to swim while the more expert swimmers could have water to any depth desired by going further from shore.

The reclamation officials have given permission to those who desire it to place pleasure boats in the reservoir, which has been taken advantage of by quite a number of people living near.

Gag a Watchman; Take \$300.

CHICAGO, July 28.—Three crackmen beat, bound and gagged Frank Sokolowski, night watchman in the Brooks laundry, North boulevard and East avenue, Oak Park. Then they dynamited the safe and escaped with \$300. Sokolowski was asleep when crackmen pried open a first floor window and crawled into the laundry at 1 o'clock in the morning. As Sokolowski awoke the three seized and overpowered him, after striking him repeatedly.

One of them pulled a piece of clothesline out of a pocket of his coat, and the watchman was tied and gagged. After wiggling about on the floor for two hours the watchman managed to work himself free from the rope at 3 a. m. He called the Oak Park police, but the bandits had departed two hours before and no trace of them was found.

Maxie for Old Folks.

PARIS, July 29.—The old folks' banquet given this year by the town of Montlucon in accordance with the annual custom was the most successful ever held. Send It Back.

GENEVA, July 29.—On account of the new super-taxes in Germany and the recent uncertain political situation in France, Swiss bankers are suffering from an embarrassment of riches. In the last six months it is estimated that \$250,000,000 in deposits and investments of various kinds has found its way into Switzerland from these two countries. Many bankers are sorely puzzled how to place their foreign clients' money profitably. The glut of gold in the Swiss banks at present is indicated by the fact that the rate of interest for new deposit accounts has fallen from 4 1/2 to 3 1/2 per cent within the past year.

LADIES! SECRET TO DARKEN GRAY HAIR

BRING BACK ITS COLOR AND LUSTRE WITH GRANDMA'S SAGE TEA RECIPE.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove ever bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss. While wispy, gray, faded hair is not sinful, we all desire to detain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush, with it and draw this through our hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautiful dark, glossy soft and luxuriant and you appear years younger.

Team Work Essential to Good Service

THE switchboard operators help each other in handling telephone calls, by good team work.

Not only at the switchboard, but all along the line, cooperation is the keynote of good service.

In the Bell system there are more than 130,000 employees. They take care of 14,000,000 miles of telephone highway. They keep in running order the complicated terminal apparatus in thousands of exchanges. Their cooperative effort keeps 7,500,000 telephones ready for instant use and they daily handle 26,000,000 telephone talks, quickening and expanding the social and business life of the nation.
